
Workplace Occupational Testing Services

Serving companies and municipalities throughout the United States, specializing in OSHA and corporate compliance obligations.

About Us

U.S. Mobile Health Exams provides quality mobile health testing services to general industry and municipalities throughout the United States.

Our services are typically provided in one of our state-of-the-art mobile health trailers and all of our services are staffed with highly trained and credentialed personnel.

In support of service requirements that exceed mobile unit capabilities or capacities, we use space within our clients' facilities to augment mobile-unit testing.

Services Offered

A worker wearing a yellow hard hat, safety glasses, and a blue earplug in their ear.

HEARING CONSERVATION TESTING PROGRAM

A close-up of a person's ear with a blue earplug being inserted.

EAR PROTECTION FITTING

A handheld noise level meter with a microphone and a digital display.

OCCUPATIONAL NOISE MONITORING SURVEYS

A worker wearing a white protective suit, a hairnet, and a black respirator mask with two filters.

RESPIRATORY PROTECTION

A close-up of a cotton plant with several white cotton bolls.

COTTON DUST

About Us

The goal of our services is to greatly reduce the disruption and cost normally associated with OSHA and other corporate compliance obligations.

By bringing our services to our clients, we greatly reduce the disruption and cost normally associated with OSHA and other corporate compliance programs. We offer customized services to meet your company's requirements and we offer flexible work schedules to meet your shift needs.

Immunizations

COMMUNITY HEALTH OUTREACH PROGRAMS

Testing provided in our state-of- the-art mobile testing trailer!

Hearing Conservation Program Details

- Testing booths have triple-layer sound proofing
- Up to 6 employees tested at a time
- State-of-the-art micro-processor audiometers are used for consistency and accuracy
- Continuous monitoring of test room noise levels
- Otoscope exam conducted when problematic tests occur
- Testing instructions available in 8 languages
- Documentation via web-based reporting
- Standard Threshold Shift (STS) reports
- Video training meets OSHA requirements
- Question and answer session available upon request

Ear Protection Program Details

- Ear plug fit testing provides a formal metric for determining whether employees are receiving optimal protection for their noise environment
- USMHE utilizes onsite screening units staffed by fully trained professionals
- Each employee tested receives a Personal Attenuation Rating (PAR)
- Safety managers receive an easy to understand report of each employee's results
- Our fit experts will help determine if your employee needs additional training with their earplugs or need to try a different model
- Optional one-on-one training from one of our ear plug fit experts as determined by their results

Occupational Noise Monitoring Surveys

- Proven to be vital assets in workers' compensation cases involving hearing loss
- Provides the credibility of having a third-party, unbiased assessment performed with state-of-the-art instrumentation
- To meet compliance with the monitoring requirements in OSHA Standard 29 CFR 1910.95, we offer two types of noise surveys:
 - *Area Measurements Using a Sound Level Meter* - Comprehensive area measurements are obtained using an integrating sound level meter to identify hazardous noise levels where worker mobility is not a factor
 - *Personal Noise Dosimetry* - Studies are conducted to identify noise exposed employees whose work environments are fluctuating or continually changing. Those employees are monitored for their entire work shift. The dosimeter provides a summary of each employee's measured actual average exposure and time-weighted-average sound exposure

Respiratory Protection Program Details

Medical Clearance

- OSHA health history questionnaire
- Spirometry (lung capacity test)
- Blood pressure reading

Fit Testing

- Qualitative fit testing using Bitrix testing protocol
- Quantitative fit testing using OHD Fit Tester 3000
- Testing on N95 masks, half-masks, full-faced masks, supplied air and SCBA masks
- Documentation via web-based reporting
- Video training which meets OSHA requirements
- Question and answer session available upon request

Cotton Dust

- On-site spirometry testing over all work shifts for companies operating in cotton dust environments
- Spirometry tests are reviewed by a Board-Certified Physician
- Our software offers the ability for tests to be compared to an employee's previous spirometry tests
- Both annual and bi-annual cotton dust medical surveillance is offered to all cotton dust clients
- NIOSH certified medical technicians
- Documentation via web-based reporting

Physical Exam Program Details

- HAZMAT exams
- HAZWOPER exams
- ERT/First responder exams
- DOT exams
- Silica exams
- Fit for duty exams
- Baseline medical exams
- Annual medical exams
- Crane operator exams
- Forklift operator exams

- Laboratory analysis
- Vision screenings
- Results available via secure website

Mobile Drug Testing Program Details

- Our team of fully trained, certified medical staff can deliver mobile health drug tests and mobile DOT drug testing
- Types of drug tests available:
 - Urine drug tests
 - Hair drug tests
 - Mouth swab drug tests
 - Saliva tests
- Results available via a secured website
- Negatives within 24 hours
- Donor interviews on all positives

Immunization, Blood Tests and Ultrasound Screenings

- Immunization programs include:
 - Flu shots
 - Hepatitis A and B
 - Tetanus
 - Pneumonia
- Mobile blood testing options includes numerous mobile lab draw services to fit the needs of your workplace and employees
- USMHE also offers ultrasound screenings, including the following:
 - Carotid artery ultrasound
 - Thyroid ultrasound
 - Abdominal aortic aneurysm ultrasound
 - Bone density test (Osteoporosis screening)

Community Health Outreach Programs

- Community health outreach programs for large corporations and municipalities
- Our expert staff works with each client to assess goals, develop protocols, plan community health events and market it to the public
- Customized trailer showcasing the client's brand
- Station our mobile trailers at each community event to provide private health services from qualified medical staff

Thousands of satisfied customers have trusted US Mobile Health Exams to help them with their compliance and health testing needs...we're looking forward to serving you as well

They come to your location. The technician is very professional. The facility/bus is clean and comfortable. We get top notch service from USMHE. The information is stored online with easy access. We will continue to use them as long as we need their service.

The staff was very time efficient and friendly. The account manager was awesome as well!! The service provided was excellent. I look forward to working with their team next year.

For years now, USMHE has provided high quality on-site testing at several of my company's branch locations. I'm very happy with their services and look forward to contracting them for years to come!

We will definitely be calling this company again for our yearly medical exams. They were very professional, thorough, and confidential. Everyone here was very impressed with their people as well as their complete organization of the whole process.

Very professional. They have all the documentation on their site for easy retrieval and willing to assist any way to make it a great experience.

Mobile truck was here on time. The employee running the truck was very nice and polite. He was very easy to work with. Had no complaints from employees getting their fit and hearing tests completed. Would recommend US Mobile Health to get your needs met.

We offer a 100% guarantee on all of our services. If you are not 100% satisfied with our services, please contact your Account Manager at 904-619-2356 with any questions or concerns.
