

SPOT TB with a World-Class TB Testing Service.

The only national TB testing laboratory exclusively dedicated to performing the T-SPOT.[®] TB test.

- CLIA-certified and CAP-accredited.
- Specimens accepted 7 days per week.
- Daily testing; no batching of tests.
- Packaging materials and shipping containers are provided to ensure blood specimens are temperature-protected during transit – at no additional cost.

Oxford Diagnostic Laboratories[®] makes TB testing easy. Really easy.

3 EASY STEPS TO FOLLOW:

Collect

1. Collect the Blood Specimen(s)

- Utilizes a standard green top collection tube
- No special phlebotomy or incubation required
- No shaking!

Send

2. Send the Blood Specimen(s)

- Blood specimens can be drawn all day, every day

Report

3. Report the Test Results

- Test results are reported within 36 hours after receipt of specimen(s)

Call us today and you can be testing tomorrow.
